

The Bankruptcy Noticing Center (BNC) is experiencing an outage since October 9, 2026. As a result, the delivery of electronic and paper notices has been interrupted, and the BNC is unable to provide noticing or certification of delivery notices back to the court.

Additionally, the following websites are unavailable:

- bnc.uscourts.gov
- bankruptcynotices.uscourts.gov
- notices.uscourts.gov
- National Creditor Registration Service (website that supports CM/ECF access to address labels)
